

Service Information

Solutions Business Manager Developer Training

The SBM Developer Training represents the comprehensive knowledge base to get your company ready for Mashups. Containing the advanced feature set of SBM it will enable your staff to reap the full potential of SBM.

This training is primarily recommended for Business Developers, who are designing, building and testing mashups.

Key topics

- Introduce SBM
- Understand the workflow concept (transitions, attributes, forms, roles)
- Create an advanced application workflow
- Deal with orchestrations
- Manage events and web services
- Test the application workflow
- Deploy the mashup

Benefits

Highly qualified and experienced trainers of QualityPark perform all trainings. A well-conceived schedule allows enough time for practical experience with the tool.

The content of the training can be adapted to any specific requirements process.

Services

All services provides according to approved QualityPark-Methods.

This offer includes the following services:

Preparation	Check for prerequisites (participants, agenda, premises & equipment)
Training	Execution of the three-day training (approx. 8 hours per day incl. breaks) at customers location
Handout	Training handout and confirmation of attendance for each participant

Service Information

Solutions Business Manager Developer Training

Premises & Equipment

Relevant for a successful performance of a three-day training the number of participants is limited to a maximum 10 persons.

The following equipment is required for the workshop: a meeting room with sufficient space as well as a running environment of SBM Server and clients. To ensure high quality training we recommended supplying at least one client for two participants.

Price list (without obligation)

QualityPark performs this service at a fixed price of EUR 6.300 per course.

Expenses for travel and accommodation are not included in the service rate.

All prices are listed excluding tax.

Services are subject to the general terms and conditions of QualityPark.

Additional Services (on request)

SBM User Training

Basic knowledge and practical experience of SBM for end use.

SBM Administrator Training:

Comprehensive training for deploying and administering SBM.

Pilot Startup SBM

This service enables you to run a pilot with SBM within a very short timeframe. To get familiar with mashups a simple process defined by the customer will be implemented.
