

Service Information

Solutions Business Manager User Training

The SBM User Training outlines the basic understanding to make your company truly mashed up. By introducing the mashup idea and explaining the essential mashup steps your application development will be easier and faster.

This training is primarily recommended for all roles (e.g. Business Analysts, Business Developers) expected to use SBM.

Key topics

- Introduce SBM
- Explain the essential mashup components
- Get acquainted with different views
- Customize home views
- Create reports
- Handle exceptions

Benefits

Highly qualified and experienced trainers of QualityPark perform all trainings. An elaborate schedule allows enough time for practical experience with the tool.

The content of the training can be adapted to any specific requirements process.

Services

All services provides according to approved QualityPark-Methods.

This offer includes the following services:

| | |
|-------------|---|
| Preparation | Check for prerequisites (participants, agenda, premises & equipment) |
| Training | Execution of a half-day training (approx. 4 hours incl. breaks) at customers location |
| Handout | Training handout and confirmation of attendance for each participant |

Service Information

Solutions Business Manager User Training

Premises & Equipment

Relevant for a successful performance of a half-day training the number of participants is limited to a maximum 10 persons.

The following equipment is required for the workshop:
a meeting room with sufficient space as well as a running environment of SBM Server and clients. To ensure high quality training we recommended supplying at least one client for two participants.

Price list (without obligation)

QualityPark performs this service at a fixed price of **EUR 1.870 per course**.

Expenses for travel and accommodation are not included in the service rate.

All prices are listed excluding tax.

Services are subject to the general terms and conditions of QualityPark.

Additional Services (on request)

SBM Developer Training

Advanced training for designing, building and testing SBM.

SBM Administrator Training

Comprehensive training for deploying and administering SBM.

Pilot Startup SBM

This service enables you to run a pilot with SBM within a very short timeframe. To get familiar with mashups a simple process defined by the customer will be implemented.
